

CREATING A PAGE HEADER GALLERY

The first screen you encounter when you create a new page will first request a name for your page. The next item will be the Master Subpage Content panel (see below) containing the page header gallery component. Here is where you will place, update, reorder, and delete header gallery photos.

[WordPress 4.6.1 is available! Please update now.](#)

Add New Page

Master Subpage Content

Page Header Gallery

	Image <small>Minimum size 1200 x 800px</small>	Caption
1	No image selected <input type="button" value="Add Image"/>	<input type="text"/>
2	No image selected <input type="button" value="Add Image"/>	<input type="text"/>
3	No image selected <input type="button" value="Add Image"/>	<input type="text"/>
4	No image selected <input type="button" value="Add Image"/>	<input type="text"/>

Page Content

Title

Intro

STEP 1: PLACE YOUR IMAGE

Select an add image button in the page header gallery component.

Master Subpage Content

Page Header Gallery

	Image <i>Minimum size 1200 x 800px</i>	Caption
1	No image selected <input type="button" value="Add Image"/>	<input type="text"/>
2	No image selected <input type="button" value="Add Image"/>	<input type="text"/>
3	No image selected <input type="button" value="Add Image"/>	<input type="text"/>
4	No image selected <input type="button" value="Add Image"/>	<input type="text"/>

Upon pressing the button, the Media Library panel will pop up as seen below.

Select Image

All images All dates

There you will have the option of adding an existing image or uploading a new image. Once you have chosen your image, it will then appear as a thumbnail in the page header gallery component.

Page Header Gallery	
Image <i>Minimum size 1200 x 800px</i>	Caption
1 	A caption can go here.
2 	

STEP 2: ADD A CAPTION (OPTIONAL)

You will have the option to add a caption to your photo in the Caption box to the right of your picture thumbnail (see above).

STEP 3: ADD ALL YOUR PHOTOS

You will continue to add all the photos to your gallery. Please note that there should be a minimum of at least 7 photos. Otherwise, there will be a black section where there should be a photo (see below).

- All photos should be a minimum of 1200 x 800 pixels.
- They should be no more that 1440 x 810 pixels to avoid slowing down Wordpress loading time with unnecessarily large photos.

STEP 4: DELETE, UPDATE, AND REORDER PHOTOS

Use the roll-over buttons on the right side of the thumbnail block to delete, update, or add new photos. Click the plus and minus circle icons to add or delete photos.

1		A caption can go here.	+ -
2			

To reorder your photos:

- Place your cursor over the number on the left side of the thumbnail and hold down to get the placement icon (shaped like a cross).
- While still holding down your cursor, move the block up or down and drop into a new order.
